

Brice Piaple Dada

IT TECHNICIAN AND SOFTWARE DEVELOPER

Rimouski, Quebec, Canada · brice.piaple.dada@gmail.com · (581) 246-5763 · bpiaple.github.io

Summary

IT professional completing a DEC in Computer Technology in May 2026, with hands-on experience in software development, systems administration, and IT support. Skilled in C#/.NET, SQL, REST APIs, Windows Server, Active Directory, Microsoft 365, and Linux. Known for clear technical documentation, analytical problem-solving, and reliable collaboration in fast-paced environments.

Experience

Ville de Rimouski – Rimouski, Quebec

Mar 2026 – present

IT Technician

- ◆ Provide level 1 and level 2 support for desktop, software, network, and peripheral incidents across municipal teams.
- ◆ Configure and maintain workstations, shared devices, and software environments in a Windows-based environment.
- ◆ Administer Microsoft 365 identities, access rights, and permission changes aligned with policy.
- ◆ Support Windows Server and Active Directory operations and maintain technical documentation.
- ◆ Contribute to service quality improvements through clear troubleshooting notes and process follow-up.

CISSSBSL – Rimouski, Quebec

June 2025 – present

Food Service Attendant

- ◆ Provide reliable client-facing service in a high-volume environment.
- ◆ Follow documented procedures and quality requirements.
- ◆ Coordinate daily operations with cross-functional teams.

Yoco Sarl Services – Yaounde, Cameroon

Jan 2022 – July 2023

Software Developer and Systems Administrator

- ◆ Deployed and maintained software solutions in Windows Server and Linux environments.
- ◆ Optimized system performance, reducing operational errors by 15%.
- ◆ Automated recurring administrative tasks and backup routines.
- ◆ Produced technical documentation for troubleshooting and handoff.

MTN Cameroon – Yaounde, Cameroon

Mar 2021 – June 2021

Development and Support Intern

- ◆ Developed and maintained internal applications and supported database administration.
- ◆ Delivered end-user technical support with about 95% satisfaction.
- ◆ Supported the application of security best practices and internal procedures.

Projects

Full-Stack Web Application and API

Built a client-server solution with C#/.NET, SQL, and operational documentation.

- ◆ Implemented REST API services and application logic in C# and .NET.
- ◆ Managed SQL queries and data operations.
- ◆ Developed a dynamic user interface and documented deployment and support procedures.

Infrastructure Server and Cloud Integration

Designed and documented a secure multi-user infrastructure aligned with enterprise support needs.

- ◆ Deployed Windows Server and Linux environments in virtualization for multi-user service scenarios.
- ◆ Implemented Active Directory domains, groups, permissions, and baseline access controls.
- ◆ Configured DNS and DHCP services and automated maintenance with PowerShell.
- ◆ Authored backup and recovery runbooks and security procedures.

Personal Website with CI/CD

Maintained a public website with automated validation and deployment workflows.

- ◆ Used GitHub Actions to automate checks and publishing.
- ◆ Managed content and releases with GitHub Pages, Markdown, and Quarto.

Education

Cegep de Rimouski – Rimouski, Quebec

Aug 2023 – May 2026

Diploma of College Studies (DEC) in Computer Technology

- ◆ Systems and network administration with Windows Server, Active Directory, DNS, and DHCP.
- ◆ Software and web development with C#, .NET, HTML, CSS, JavaScript, and SQL.
- ◆ Cybersecurity, infrastructure deployment, and troubleshooting practices.
- ◆ Mobile development fundamentals with Flutter and Dart.

Institut Universitaire de Technologie de Bandjoun – Bandjoun, Cameroon

Nov 2020 – June 2023

Bachelor of Computer Science in Software Engineering

- ◆ Software design, information systems analysis, and database fundamentals.
- ◆ Algorithm design, data structures, and application development.

Certifications

Google Cybersecurity Certificate – Coursera

2023

Data protection, risk analysis, and security foundations.

Ethical Hacker – Cisco

2024

Offensive security techniques and defensive control practices.

Distinctions

Excellence Scholarship – Federation des cegeps

2023 - 2026

Academic distinction awarded for sustained high performance.

Gala Achievement Distinction – Fondation du Cegep de Rimouski

2025

Recognition for outstanding academic and personal achievement.

Technical Skills

Development: C# and .NET, JavaScript, HTML/CSS, Python, SQL, Flutter and Dart, Git and GitHub

Systems and Infrastructure: Windows Server, Active Directory, Microsoft 365, Linux, DNS, DHCP, virtualization (VMware)

Network and Security: TCP/IP, LAN troubleshooting, firewall and access control concepts, backup and recovery, patching

Automation and DevOps: PowerShell, bash, GitHub Actions, CI/CD, GitHub Pages, Quarto

Databases: SQL, PostgreSQL, query troubleshooting, data modeling, backup and recovery

Support Operations: L1 and L2 support, remote troubleshooting, incident documentation, IT asset inventory

Additional Information

Availability: Open to remote, hybrid, or on-site roles and available for relocation.

Languages

French: Native

English: Professional working proficiency
